

Neil Ronan

Call to Bar: 2012

Neil Ronan's practice encompasses all areas of serious and regulatory crime. He is regularly instructed in the most serious criminal cases on circuit. He is an experienced advocate; both at trial and in advancing complex legal argument. He has garnered a reputation for client care and case management skills as second to none.

Prior to his practice at the bar Neil spent 12 years as an expert witness and forensic scientist. In that time, he investigated and analysed evidence in thousands of cases, for both the prosecution and as a defence expert. This included high profile cases and over 30 homicide case; for example- <https://www.theguardian.com/uk/2013/feb/19/jailed-gas-blasttoddler-partingto-oldham>

Neil has particular expertise in cases involving the following :

Drugs, Arson endangering life , DNA, Trace and particulate evidence, Explosions and Explosives, Firearms and discharge residues, Cell site and phone evidence.

At different stages in his career Neil has managed case loads as a case worker, legal executive and litigator. He has first hand experience of working within a number of legal service providers offices and has an excellent understanding of how he can add value to those instructing in his service delivery and case management.
